To

K.V.Anantaraman, Esq., B.A.,

Secretary to the Government of

His Highness the Maharaja of Mysore,

Revenue Department, B a n g a l o r e.

Sir,

Referring to para 6 of Government Order No.856-9/D. 23-23 dated 27th March 1924 re. fixing definite responsibilities on the Sub Division Officers in respect of distress operations, I have the honour to forward herewith copies of letters Nos. D.2/23-24 and O.C.1840/22-23 dated 3rd April 1924 and 5th April 1924 from the Deputy Commissioners of Kolar and Tumkur Districts respectively, making certain recommendations in the matter, of which the following may be sanctioned by Government:-

2. (i) The Sub Division Officers should be required to give timely warning to the Deputy Commissioner whenever the situation gets bad in any tract with definite suggestions for relief.

(ii) They should be held responsible to submit to the Deputy Commissioner, in consultation with the Amildars and the Engineer Officers, programmes of works for their Sub Divisions.

(iii) They should inspect the fodder depots, if any, which may be within their sub Divisions.

(iv) They should satisfy themselves in the course of their tours that Takavi loans are given to the proper persons.

(v) They should see to the proper maintenance of loan registers and other registers recently prescribed by Government in connection with relief measures.

(iv) The Sub Division Officers may be permitted to sanction estimates of Village Improvement Works up to Rs.200/- in each case: they should also scrutinize and pass bills in respect of such estimates sanctioned by them.

(vii)

(vii) They should also be entrusted with sanctioning and passing of estimates and bills re. temporary drinking water wells not exceeding Rs. 100 in each case with the proviso that no estimate for temporary wells for non-Panchamas should be sanctioned by the Sub Division Officers without the Deputy Commissioners' approval.

(viii) They should satisfy themselves that the works ordered to be started are started without delay and should, if necessary, get them started by personal representation to the Engineer Officers and the Deputy Commissioner.

(ix) They should inspect as many of the tank works in progress as possible and satisfy themselves that the rates given are adequate.

(x) They should be required to scrutinize and pass bills received through the Amildars on account of Gratuitous Relief offered to indigent persons.

The submission of weekly reports and of accounts through Sub Division Officers would involve delay and is not recommended, but they should be asked to carefully scrutinize all the accounts -- when going to the Talukas. (vide (v) above.)

I have the honour to be,

Sir,

Your most obedient servant,

Assistant Commissioner,
for Revenue Commissioner,
(absent from station).

CONFIDENTIAL.

D.O.

Copy of letter No. D.2/23-24 dated 3rd day in April 1924 from the Deputy Commissioner, Kolar District, to the Revenue Commissioner in Mysore, Bangalore.

In reply to your D.O. letter No. D.221 of the 25th March, I write to state that I agree that the Sub Division Officers are not taking sufficient responsibility in distress matters. There is a tendency on their part to leave matters on the one side to the Amildars and on the other to the Deputy Commissioner. I would therefore suggest that they may be made definitely responsible for the following:-

1. They should take measures of at least 25 per cent of the village works within their charge.

2. They should be responsible to submit to the Deputy Commissioner in consultation with the Amildars and the Engineer Officers programmes of works for their sub Division.

3. They should be absolutely responsible for the proper maintenance of loan registers and the other registers recently prescribed by Government in connection with relief measures.

4. They should satisfy themselves that works ordered to be started are started without delay and should, if necessary, get them started by personal representation to the Engineer Officers and the Deputy Commissioner.

5. They should inspect as many of the tank works in progress as possible and satisfy themselves that the rates given are adequate.

6. In the course of their tours they should inspect the fodder depots and satisfy themselves that the takavi loans are given to the proper persons.

7. They should give timely warning to the Deputy Commissioner whenever the situation gets bad in any tract with definite suggestions for relief.
